School election process is a time when students get to know about the process involved in choosing the right candidate for a particular post by using their right to vote and choosing a governing body that represents the students of the school as one.

The Objective of appointing the student Council is to provide a platform for the students to develop leadership qualities by organising and carrying out school activities services and projects. In addition to planning events that contribute to school spirit and community welfare, the Student Council is the voice of the student body.

-They help, share student ideas, interests and concerns with the school-wide community prior to the election, candidates who had filed nominations were asked to campaign, why they should be elected for the post they had stood for.

The election was organised in the school Auditorium. The students of grade III to IX cast their votes! Students exercised their right to the franchise by choosing the candidates of their choice from the assigned forms. Finally, the most awaited results were declared by our Principal Sir.

-As a parent, you are the major provider of your child's education from birth through adolescence. You guide the development of their character and mental health and help form the foundation from which they'll develop lifelong attitudes and interests. And because your home is the primary environment in which your child's potential and personality will take shape, it's important to make sure that you create a positive, open atmosphere that will not only support what goes on in the classroom, but will also instill the desire to learn.
